Date Revised:

Approved by Scott County Board of Health on February 17, 2011

Scott County

Promote Healthy Behaviors Assessment

includes topics such as addictive behaviors (tobacco, alcohol, drugs, gambling), chronic disease (mental health, cardiovascular disease, cancer, asthma, diabetes, arthritis, etc.), elderly wellness, family planning, infant, child & family health, nutrition, oral health, physical activity, pregnancy & birth, and wellness.

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Promote healthy living (access to screenings, free and safe places to exercise, health education, healthy environments, stop smoking etc).	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input type="checkbox"/> Other. Please specify

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Address tobacco use as a risk factor for cardiovascular disease and other chronic diseases. According to the 2009 BRFSS, 17% of Scott County adults are current smokers.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify Already being addressed through Tobacco-Free QC Coalition.

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Decrease the incidence of childhood obesity in Scott County. The Pediatric Nutrition Surveillance System (PedNSS) report shows that Scott County ranked 19th among all Iowa Counties for obesity rates in WIC participants ages 2 through 4 years of age (1 ranking being the best).	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify Integrated into the activities of existing agencies and programs that are already being implemented in the community. This is also indirectly impacted through the strategies for the goals to promote healthy living in Scott County.

Scott County

Promote Healthy Behaviors Assessment

Scott County

Promote Healthy Behaviors Assessment

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Decrease the number of older adults developing or continuing untreated substance abuse problems. There are a growing number of elders who are developing or continuing their substance abuse problems into their later years.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify
			In prioritizing the identified needs in the community, this need did not meet the criteria as most important for addressing.

Scott County

Prevent Injuries Assessment

includes topics such as brain injury, disability, EMS trauma & system development, intentional injuries (violent & abusive behavior, suicide), occupational health & safety, and unintentional injuries (motor vehicle crashes, falls, poisoning, drowning, etc.).

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Decrease the incidence of youth violence in Scott County. The most recent Iowa Youth Survey states that Scott County teens' responses align within one percent of the State of Iowa's results when asked how often they were disciplined at school for fighting, theft, or damaging property.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify
			In prioritizing the identified needs in the community, this need did not meet the criteria as most important for addressing.

Scott County

Protect Against Environmental Hazards Assessment

includes topics such as drinking water protection, food safety, hazardous materials, hazardous waste, healthy homes, lead poisoning, nuisances, onsite wastewater systems, radon, radiological health, and vector control.

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Improve outdoor air quality. Although the general air quality in the bi-state region is considered good, there have been revised thresholds based on health considerations that have created a concern.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify Existing community partners are currently addressing this issue.
Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	

Scott County

Prevent Epidemics & the Spread of Disease Assessment

includes topics such as disease investigation, control & surveillance, HIV/AIDS, immunization, reportable diseases, sexually transmitted diseases, and tuberculosis (TB).

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Decrease sexually transmitted diseases. Scott County continues to see some of the highest STD rates in the State. Scott County ranks in the top five counties in Iowa for Chlamydia and Gonorrhea infections.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify In prioritizing the identified needs in the community, this need did not meet the criteria as most important for addressing.

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Childhood immunization. Immunizing children for daycare and school entry is a requirement but there is a lack of children receiving recommended adolescent immunizations after school entry.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify In prioritizing the identified needs in the community, this need did not meet the criteria as most important for addressing.

Scott County

Prepare for, Respond to, & Recover from Public Health Emergencies Assessment

includes topics such as communication networks, emergency planning, emergency response, recovery planning, risk communication, and surge capacity.

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Increase preparedness in the event of a pandemic episode. While Scott County Health Department is in compliance with the directives from the Iowa Department of Public Health for the Regional Public Health Emergency Preparedness and Response, there is additional community planning that needs to take place.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify Preparedness is being addressed with community partners at the local, regional and state level.
Streamline emergency medical services in Scott County. Currently, all responses to 911 calls for service run "hot" lights and sirens no matter what the problem might be. This approach creates a safety issue.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify The Scott County Emergency Communication Center will soon be in operation and will play a role in addressing this need.
Funding for the delivery of emergency medical services to less populated rural areas in Scott County. Currently, ambulances are subsidized by Scott County but not first response agencies in rural communities. Township taxes are collected for fire protection only.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input checked="" type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input type="checkbox"/> Other. Please specify

Scott County

Strengthen the Public Health Infrastructure Assessment

includes topics such as access to quality health services, community engagement, evaluation, health facilities, health insurance, medical care, organizational capacity, planning, quality improvement, social determinants (e.g., education & poverty levels), transportation, and workforce.

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Address the issues surrounding understaffed mental health centers. Scott County has approximately one psychiatrist for every 14,949 individuals (based on Scott County's 2008 estimated population).	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input type="checkbox"/> Other. Please specify

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Access to mental health services. With the decrease in funding currently taking place in Scott County and across Iowa, mental health services and programs are being scaled back or eliminated.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input type="checkbox"/> Other. Please specify

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Improving the integration of mental health care in the primary medical care system. It has been recognized that there is a need to achieve better integration of health and mental health care services in the primary care setting through heightening the awareness of health professionals to medical models for mental health integration.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input type="checkbox"/> Other. Please specify

Scott County

Strengthen the Public Health Infrastructure Assessment

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Systematic collaboration for educational and case management support for children's mental health issues. Scott County lacks one central point of entry for the provision of case management. A central point of entrance for case management services for adults with mental health needs exists through Scott County Community Services.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input type="checkbox"/> Other. Please specify

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Early screening and intervention for mental health illnesses in children. In Scott County, there is a decline in the number of psychiatrists for children and a decreased number of health professionals with specialized practice training for mental health intervention.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input type="checkbox"/> Other. Please specify

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Address the needs surrounding underfunded mental health centers. Scott County suffered approximately a one million dollar loss in funds in 2009. If spending on mental health services remains constant, along with the decrease in funds, the county will likely face a negative balance in its budget.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input type="checkbox"/> Other. Please specify

Scott County

Strengthen the Public Health Infrastructure Assessment

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Increase the number of individuals with a medical home. In Scott County, 64.8% of clients (Title V and /or Title IX recipients) entered into Scott County Care for Kids Program's agency home share that they currently have a medical home. Statewide, 84.1% of the same clients report having a medical home.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify There are programs in the community that are addressing this issue.

Problem/Need	Is this problem/need addressed in your HIP?	If not, why?	
Access to oral health care. As reported by Scott County's I-Smile Coordinator in June of 2010, Scott County has 19 (20%) of its 82 general and pediatric dentists accepting children with Iowa Medicaid as new patients.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Competing projects/priorities <input type="checkbox"/> Lack of equipment/supplies <input type="checkbox"/> Lack of access to staff training & development <input type="checkbox"/> Community partners do not exist <input type="checkbox"/> Lack of access to technical assistance & services <input type="checkbox"/> Lead organization does not exist	<input type="checkbox"/> Lack of community/public support <input type="checkbox"/> Lack of office space/facilities <input type="checkbox"/> Lack of financial resources <input type="checkbox"/> Lack of human resources/staff <input checked="" type="checkbox"/> Other. Please specify There are programs in the community that are addressing this issue.

Scott County

Community Health Needs Assessment Snapshot

Promote Healthy Behaviors

Problems/Needs:

Promote healthy living (access to screenings, free and safe places to exercise, health education, healthy environments, stop smoking etc).
Address tobacco use as a risk factor for cardiovascular disease and other chronic diseases. According to the 2009 BRFSS, 17% of Scott County adults are current smokers.
Decrease the incidence of childhood obesity in Scott County. The Pediatric Nutrition Surveillance System (PedNSS) report shows that Scott County ranked 19th among all Iowa Counties for obesity rates in WIC participants ages 2 through 4 years of age (1 ranking being the best).
Decrease the number of older adults developing or continuing untreated substance abuse problems. There are a growing number of elders who are developing or continuing their substance abuse problems into their later years.

Prevent Injuries

Problems/Needs:

Decrease the incidence of youth violence in Scott County. The most recent Iowa Youth Survey states that Scott County teens' responses align within one percent of the State of Iowa's results when asked how often they were disciplined at school for fighting, theft, or damaging property.

Protect Against Environmental Hazards

Problems/Needs:

Improve outdoor air quality. Although the general air quality in the bi-state region is considered good, there have been revised thresholds based on health considerations that have created a concern.

Prevent Epidemics and the Spread of Disease

Problems/Needs:

Decrease sexually transmitted diseases. Scott County continues to see some of the highest STD rates in the State. Scott County ranks in the top five counties in Iowa for Chlamydia and Gonorrhea infections.
Childhood immunization. Immunizing children for daycare and school entry is a requirement but there is a lack of children receiving recommended adolescent immunizations after school entry.

Prepare for, Respond to, and Recover from Public Health Emergencies

Problems/Needs:

Increase preparedness in the event of a pandemic episode. While Scott County Health Department is in compliance with the directives from the Iowa Department of Public Health for the Regional Public Health Emergency Preparedness and Response, there is additional community planning that needs to take place.
Streamline emergency medical services in Scott County. Currently, all responses to 911 calls for service run "hot" lights and sirens no matter what the problem might be. This approach creates a safety issue.
Funding for the delivery of emergency medical services to less populated rural areas in Scott County. Currently, ambulances are subsidized by Scott County but not first response agencies in rural communities. Township taxes are collected for fire protection only.

Strengthen the Public Health Infrastructure

Problems/Needs:

Address the issues surrounding understaffed mental health centers. Scott County has approximately one psychiatrist for every 14,949 individuals (based on Scott County's 2008 estimated population).
Access to mental health services. With the decrease in funding currently taking place in Scott County and across Iowa, mental health services and programs are being scaled back or eliminated.
Improving the integration of mental health care in the primary medical care system. It has been recognized that there is a need to achieve better integration of health and mental health care services in the primary care setting through heightening the awareness of health professionals to medical models for mental health integration. Systematic collaboration for educational and case management support for children's mental health issues. Scott County lacks one central point of entry for the provision of case management. A central point of entrance for case management services for adults with mental health needs exists through Scott County Community Services.
Early screening and intervention for mental health illnesses in children. In Scott County, there is a decline in the number of psychiatrists for children and a decreased number of health professionals with specialized practice training for mental health intervention.
Address the needs surrounding underfunded mental health centers. Scott County suffered approximately a one million dollar loss in funds in 2009. If spending on mental health services remains constant, along with the decrease in funds, the county will likely face a negative balance in its budget.
Increase the number of individuals with a medical home. In Scott County, 64.8% of clients (Title V and /or Title IX recipients) entered into Scott County Care for Kids

Scott County

Community Health Improvement Plan

addresses community-wide health needs and priorities as identified during the community health needs assessment process.

GOAL	Strategies	Who is responsible?	When? (Timeline)
