2006-07 MANAGEMENT LETTER COMMENTS
March 2008

SUBJECT	RESPONSIBILITY	TIMEFRAME
<p>1. Comment: The purchasing card and accounts payable system are two separate systems for processing expenditures that are unable to communicate with each other. It is possible that a charge could be paid twice out of each system resulting in a duplicate expenditure. Currently, the County does not have a process in place to avoid double payments occurring but instead has to rely on the vendors notifying the County of the overpayment and/or the departmental claims clerks to catch the error.</p> <p>Recommendation: As each department prepared the accounts payable vouchers and the purchasing card reconciliations, we recommend the department develop a method for comparing these two items to avoid duplication. We would also recommend the County investigate the ability to have the two systems communicate with each other through a common identifier.</p> <p>Current Status: Completed. Training took place on March 20th with county departments.</p>	Administration/FSS/IT	March 2007
