## Scott County Prescription Drug Discount Program Saves Scott County Residents \$320,979

### *County Residents Take Advantage Of Free Discount Cards To Save Money On Prescription Drugs*

September 30, 2008 — During the first year since the introduction of the Scott County free prescription drug discount program, it has saved Scott County residents \$320,979. Chairman Jim Hancock announced today, that 36,764 prescriptions were filled with the card at discounts averaging 22% or \$8.73 per prescription.

Scott County launched the program to help consumers cope with the high price of prescription drugs. The county is making the free prescription drug discount cards available under a program sponsored by the National Association of Counties (NACO) that offers average savings of 20 percent off the retail price of commonly prescribed drugs.

Best of all, there is no cost to county taxpayers for NACO and Scott County to make these money saving cards available to our residents.

The cards may be used by all county residents, regardless of age, income, or existing health coverage, and are accepted at all the major pharmacies in Scott County. A national network of more than 59,000 participating retail pharmacies also honors the Scott County Prescription Discount Card.

Cards are available at County offices, city halls, participating pharmacies, Salvation Army, Community Health Care, Family Resources and CASI. County residents can call the County Administration Office Health Department at 563-326-8702 or visit [www.scottcountyiowa.com](http://www.scottcountyiowa.com) for information on where to pick up the card. For assistance with the program, please contact your pharmacy or [www.caremark.com/naco](http://www.caremark.com/naco).

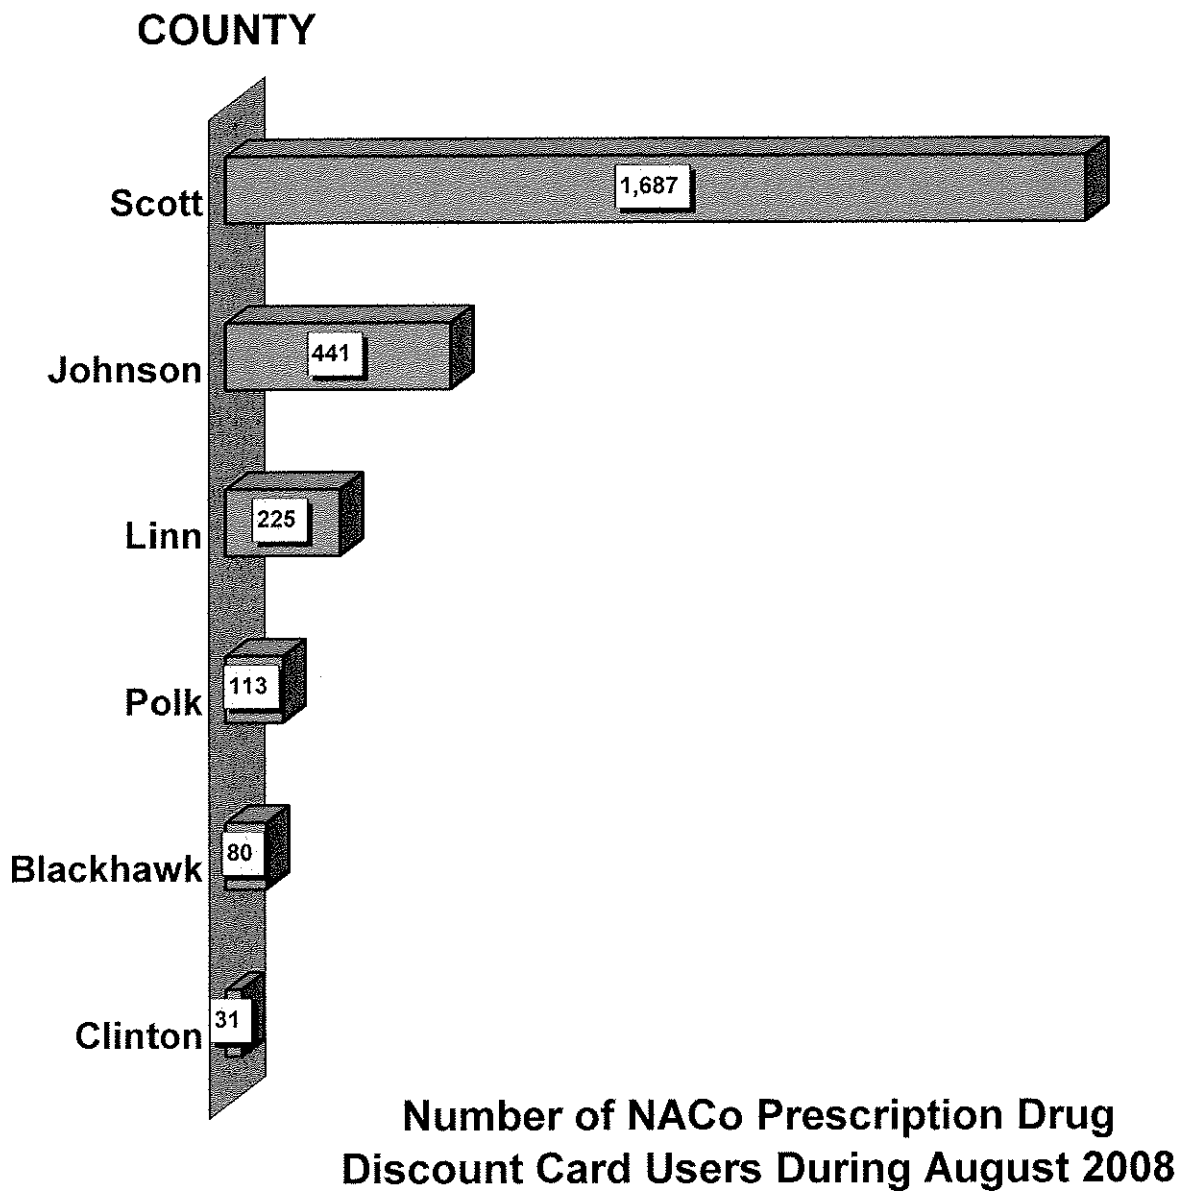

“Using the NACO prescription discount card is easy,” said Chairman Hancock. “Simply present it at a participating pharmacy. There is no enrollment form, no membership fee and no restrictions or limits on frequency of use. Cardholders and their family members may use the card any time their prescriptions are not covered by insurance.”

The program is administered by Caremark Rx, Inc.

*The National Association of Counties (NACO) is the only national organization that represents county governments in the United States. Founded in 1935, NACO provides essential services to the nation's 3,066 counties. NACO advances issues with a unified voice before the federal government, improves the public's understanding of county government, assists counties in finding and sharing innovative solutions through education and research, and provides value-added services to save counties and taxpayers money. For more information about NACO, visit [www.naco.org](http://www.naco.org).*

Column Headers from left to right:

1. Total Rx's: This is the total number of Rx's that were adjudicated or attempted to adjudicate through the use of the card (the explanation of the next couple of headers will help explain the necessity of this column).
2. Plan Priced Rx's: Caremark tracks all attempts to use the cards including when the pharmacy offers a lower price than the card can give. This is usually when the pharmacy sells a drug at cost or below cost to create foot traffic for the pharmacy or under a special purchase arrangement. This is the amount of Rx's that the card gave the best price vs. the pharmacy.
3. % Plan Priced Rx's: What percentage of the total attempted Rx's adjudicated via best price with the card.
4. Retail Priced Rx's: How many prescriptions where the pharmacy had a lower price.
5. % Retail Priced Rx's: Percentage of Rx's where the pharmacy had a lower price.
6. Total Drug Cost: All prescriptions totaled together at their card discount prices.
7. Average Drug Cost: Average Drug Cost per Rx at the card discounted price.
8. Retail Submitted Price: What the price would have been if the prescriptions weren't filled with the card.
9. Average Retail Submitted Price: Average Per Prescription price if the card wasn't presented at a discount.
10. Price Savings: Total dollar savings for all Rx's filled with the card.
11. Average Price Savings: Average price savings per prescription.
12. % Price Savings: Percentage price savings per prescription.
13. Total Utilizers: This is the total amount of people who represent the total amount of prescriptions *i.e.* some people fill multiple prescriptions. This gives you an indication of how many residents you are helping.

As always, if you have questions, don't hesitate to contact me. Thank you for being a member county, borough or parish and participating in this member program.

5. % Retail Priced Rx's: Percentage of Rx's where the pharmacy had a lower price.
6. Total Drug Cost: All prescriptions totaled together at their card discount prices.
7. Average Drug Cost: Average Drug Cost per Rx at the card discounted price.
8. Retail Submitted Price: What the price would have been if the prescriptions weren't filled with the card.
9. Average Retail Submitted Price: Average Per Prescription price if the card wasn't presented at a discount.
10. Price Savings: Total dollar savings for all Rx's filled with the card.
11. Average Price Savings: Average price savings per prescription.
12. % Price Savings: Percentage price savings per prescription.
13. Total Utilizers: This is the total amount of people who represent the total amount of prescriptions i.e. some people fill multiple prescriptions. This gives you an indication of how many residents you are helping.

As always, if you have questions, don't hesitate to contact me. Thank you for being a member county, borough or parish and participating in this member program.

Column Headers from left to right:

1. Total Rx's: This is the total number of Rx's that were adjudicated or attempted to adjudicate through the use of the card (the explanation of the next couple of headers will help explain the necessity of this column).
2. Plan Priced Rx's: Caremark tracks all attempts to use the cards including when the pharmacy offers a lower price than the card can give. This is usually when the pharmacy sells a drug at cost or below cost to create foot traffic for the pharmacy or under a special purchase arrangement. This is the amount of Rx's that the card gave the best price vs. the pharmacy.
3. % Plan Priced Rx's: What percentage of the total attempted Rx's adjudicated via best price with the card.
4. Retail Priced Rx's: How many prescriptions where the pharmacy had a lower price.
5. % Retail Priced Rx's: Percentage of Rx's where the pharmacy had a lower price.
6. Total Drug Cost: All prescriptions totaled together at their card discounted prices.
7. Average Drug Cost: Average Drug Cost per Rx at the card discounted price.
