January 12, 2009

To: Dee F. Bruemmer, County Administrator
From: Matt Hirst, Information Technology Director
Subject: Approval of Purchase of ESRI Software Maintenance

ESRI software license maintenance is due for renewal. ESRI is the application deployment frame work implemented by Information Technology to Geographic Information System (GIS) at Scott County.

The bid summary from ESRI is as follows:

<u>Product</u>	<u>Total</u>
ESRI Software Maintenance	\$14,237.80
Total	\$14,237.80

It is recommended that the Board approve the bid from ESRI in the amount of \$14,237.80.

The ESRI proposal provides Information Technology the ability to obtain the latest updates and patches to the software. The result is a more functional and dependable computing environment.

Note: ESRI is the sole domestic provider of software maintenance for all ESRI software (technical support plus ESRI software updates/upgrades). While ESRI distributes certain software licenses through resellers and distributors, software maintenance is available only through ESRI.

Budget dollars are available from GIS bond proceeds in the Capital Improvement Program budget to fund the cost of this contract.
