SUBJ: Resolution for Approval of Modifications to Utility Permits

DATE: January 19, 2010

Resolution for approval of modification to utility permits

If the Engineer does not approve a permit the company requesting will have fifteen days to appeal the decision to the Board of Supervisors.

Typically we receive twenty-four permits per year. Allowing the Engineer to approve the permits will save time for the Board and save publication costs. The utility companies would be able to start work earlier saving time for them as well.
