County Administrator

From Edward Rivers  
Director

Subject: Letter of support for Lead Based Paint Hazard Control Grant

Attached is a letter to Mayor Gluba supporting the city in applying for a \$3.5 million dollar grant from Housing and Urban Development (HUD) Lead Based Paint Hazard Control Grant.

The grant the city is applying for is being expanded to include any property in municipalities or unincorporated areas of Scott County.

If you have any questions, please contact Larry Linnenbrink at 8812.

May 24, 2011

William Gluba, Mayor  
City of Davenport  
214 West 4<sup>th</sup> Street  
Davenport, IA 52801

Dear Mr. Gluba:

The Scott County Board of Supervisors is in support of the proposed grant by the City of Davenport for the Housing and Urban Development (HUD) Lead Based Paint Hazard Control Grant Program.

The Scott County Health Department is a local leader in the educating families about lead-based paint hazards and screening of children for blood-lead poisoning. The funds the Health Department would receive will allow the Department to develop and expand community awareness regarding the importance to having children tested for blood-lead poisoning as well as creating lead safe living environment.

The Board of Supervisors supports this collaborative effort between the City of Davenport and the Scott County Health Department to educate property owners living in homes where lead-based paint is likely to be found. This proactive approach will help protect the health of our citizens. We strongly urge you to consider the proposal submitted by the City of Davenport as you administer funds for this important program.

Sincerely,

Thomas Sunderbruch, Chairperson  
Scott County Board of Supervisors
