

August 2, 2011

To: Scott County Board of Supervisors  
From: Ray Weiser, GIS Coordinator  
Re: Scott County Quarterly IT/GIS Update

## Presentation Outline

### *Scott County GIS Update*

**Scott County Land Records:** The role of GIS in Scott County land records maintenance and related projects.

- Recent actions, completed projects.
- Review and demo of the Scott County Web GIS Mapping Service.
- Planned projects, future activities.

**Scott County Addressing and 911:** Scott County GIS and maintaining the countywide address database.

- How does GIS support SECC?
- Recent actions, completed projects.
- Future projects.

**Scott County Department Support:** Supporting department staff with GIS. Sample projects currently in progress or recently completed.

- What's your 20? Developing new map books for the Scott County Sheriff's Office.
- Sign of the times. New FHWA retro-reflectivity requirements, managing Secondary Roads Department's road signs in GIS and improving workflows.
- Getting the lead out. Mapping state lead blood levels results in children for the Health Department.

Sincerely,

A handwritten signature in black ink, appearing to read "Ray Weiser".

Ray Weiser  
Scott County GIS Coordinator
