Subj: Approval of video server purchase for Sheriff's Office

Information Technology has been assisting the Sheriff's Office in the procurement of a video server system for their digital in-car video recorders. This system would allow for the download of video footage from Sheriff's squad cars to a networked server. Having a networked server will give the Sheriff's Office more storage for video footage and enhance flexibility for video viewing and retrieval.

A sole source quote from L3 Mobile Vision, Inc. (see attached) will provide all the necessary components and software for the system. That quote is in the amount of \$16,979.53 and the Sheriff has secured funding for the purchase using County Attorney forfeiture funds.
