To: Dee F. Bruemmer, County Administrator
From: Matt Hirst, Information Technology Director
Subject: Approval of Purchase of Backup Software Maintenance and Support

CommVault backup software license maintenance is due for renewal. CommVault Galaxy is the software implemented by Information Technology to backup data at Scott County and SECC.

The bid summary is as follows:

| <u>Vendor</u> | <u>Total</u> |
|-----------------|--------------------|
| MCPc | \$20,857.68 |
| EnPointe | \$20,890.22 |
| Insight | \$20,962.50 |
| CDWG | \$21,500.00 |

It is recommended that the Board approve the bid from MCPc in the amount of \$20,857.68.

The CommVault proposal provides Information Technology the ability to obtain the latest updates and patches to the software as well the support necessary to better utilize the data backup storage solution. The result is a more functional and dependable backup environment.

This contract was awarded to B2B Computers in the amount of \$16,183.43 last year. The increase is due largely to additional expenses with SECC which will be billed for its portion. Budget dollars are available in the Information Technology department budget as well as SECC's budget to fund each respective portion of this contract.
