To: Dee F. Bruemmer, County Administrator
From: Matt Hirst, Information Technology Director
Subject: Approval of Purchase of VMware Software Maintenance and Support

VMware software license maintenance and support is due for renewal. VMware is the server virtualization frame work implemented by Information Technology to support efficient and robust computing at Scott County.

The bid summary is as follows:

<u>Vendor</u>	<u>Total</u>
VMware	14,633.00

It is recommended that the Board approve the bid from VMware in the amount of \$14,633.00.

The VMware proposal provides Information Technology the ability to obtain the latest updates and patches to the software as well software support during business hours. The result is a more functional and dependable computing environment.

This contract was awarded to RK Dixon in the amount of \$24,236.48 last year. The decrease is due largely to license model changes at VMware. Budget dollars are available in the Information Technology Department operational budget to fund the cost of this contract.
