Subj: Award of Bid- Service Agreement Jail Security Electronics System

As part of our annual solicitation for various service contracts, purchasing obtained a labor only proposal for a service contract for the jail Security Electronics System from our current vendor, Stanley Convergent Security Solutions. This service contract provides both phone and on-site support for the entire Security Electronics System, including the door controls, closed circuit televisions, intercom system and video visitation system. This service contract covers semi-annual inspections and system calibration, telephone consultation during regular business hours, on site and remote diagnostic and software repair, and labor costs to repair the system. Stanley guarantees their ability to repair and keep the security system operational. It also provides for priority phone and on site response. Not included in this service contract are the parts and component required to complete repairs.

The proposal from Stanley is a three year contract, at a cost of \$13,560.00 per year for a total cost of \$40,680.00. This service contract is not competitively bid due to the proprietary nature of the system and the need to have Stanley deal with any programming and software issues that may arise. This price remains unchanged from the last three year service contract.

I recommend that the Board award this contract to Stanley. This contract is budgeted in the FSS operational budget. I will be at the next Committee of the Whole meeting to discuss my recommendation further and to answer any questions you or the Board may have.
