SUBJ: Resolution Approving Bridge Postings

DATE: November 7, 2016

This resolution is in regards to updating weight limit restrictions of certain bridges on the secondary road system.

The Board of Supervisors is empowered under the Code of Iowa to prohibit the operation of vehicles or impose limitations as to the weight of vehicles on designated highways or highway structures under their jurisdiction. Our bridges are inspected in accordance with the National Bridge Inspection Standards. These inspections are performed in part by our consultant Calhoun – Burns & Associates and in part by county staff.

During the past year, two posted bridges have been replaced and therefore no longer require load limit restrictions.

It has been determined that four bridges require posting of load limit restrictions. The Iowa Department of Transportation Enforcement Branch will not write citations for violations of bridge postings unless a resolution has been passed by the Board authorizing the restrictions. The attached resolution also gives local law enforcement and the County Attorney a defensible position while prosecuting violators.

We presently have four posted bridges in the county. All four bridges are scheduled for replacement in our Five – Year Program.
