RE: Election Purchases

Due to the recent redistricting, Scott County must increase their voting precincts by three. The proposed purchases are for the election equipment for these three new sites, as well as two additional machines in each category to increase the inventory for back-up purposes.

Scott County purchased all new voting equipment with ES&S in 2017 and this was a significant investment, \$713,146.21. As individual machines need to be added or replaced, it is necessary to have the same machine with the same company to ensure a seamless election. Therefore, separate bids are not provided or optional for this purchase. Please note the cost increase is less than 8% from the original purchase price in 2017 (\$5,750 in 2017 and \$6,200 in 2022). The proposed purchase includes five each of the following:

- DS200 Precinct Scanners
- Express Vote Ballot Marking Device

The total cost of this equipment (with maintenance) is \$54,520.00 and is part of a future budget amendment.

Thank you for your consideration.
