SUBJ: Approval of Plans, Specifications, and Letting Date

DATE: November 14, 2022

This resolution is to approve the plans, specifications, and letting date for safety improvements at the intersection of Y40 (60<sup>th</sup> Avenue) and Hwy 130. Project HSIP-SWAP-C082(68)--FJ-82 includes installation of regulatory and warning signs; re-cutting the transverse rumble strip panels on Y40; and installing solar flashing beacons on the stop signs and intersection warning signs.

This intersection is identified as a high risk intersection in our Local Road Safety Plan. The intersection is two-way stop control with traffic stopping on Y40. Y40 intersects Hwy 130 at a severe angle and therefore it can be difficult for traffic on Y40 to see traffic traveling on Hwy 130. There have been 11 crashes at this intersection in the past 11 years that involve traffic on Y40 failing to yield the right-of-way to traffic on Hwy 130.

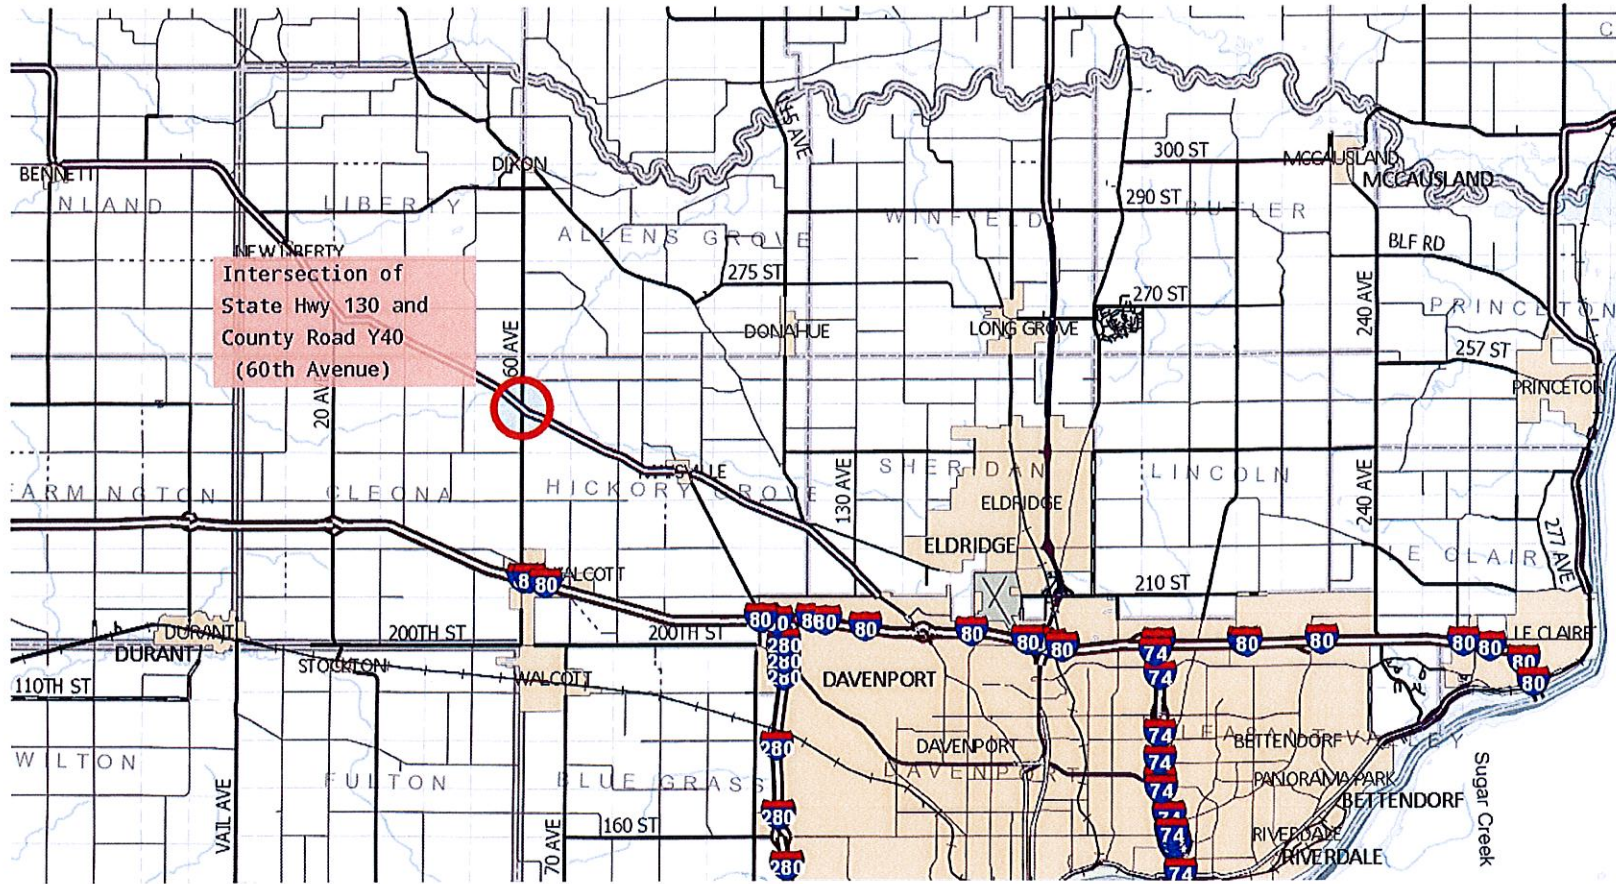

This project is in FY 2023 of our Five-Year Construction Program with a budgeted cost of \$76,000. Our department applied for and was awarded funding from the Iowa Department of Transportation (Iowa DOT) through the Highway Safety Improvement Program (HSIP) – Secondary Program for this project. We entered into a funding agreement with the Iowa DOT for this project on March 23, 2022. Construction project costs will be paid by our department and we will receive reimbursement of those costs from the Iowa DOT as stipulated in the funding agreement.

This project is on schedule for a March 21, 2023, letting by the Iowa DOT. Included with this memo is a project location map. I recommend signing the title sheet of the plan set and approving the project for letting.
