SUBJ: Calcium Chloride Tank Replacement at Secondary Roads Maintenance Facility

DATE: July 10, 2023

Our department has identified the need to replace the calcium chloride tank at our maintenance facility in Eldridge. The existing tank is over 36 years old, has deteriorated, and requires replacement. We typically utilize calcium chloride to pre-wet our rock salt, as part of our snow removal operations, when temperatures drop below 20°F.

Three competitive quotes were solicited for furnish and delivery of a Norwesco heavy duty 5,025 gallon horizontal leg tank. The following quotes were received:

Sprayer Specialties, Inc., Grimes, IA	\$16,860.16
Fertilizer Dealer Supply, Jesup, IA	\$17,235.26
Eldon C. Stutsman, Inc., Hills, IA	\$19,397.00

Upon delivery of the new tank, the existing tank will be listed for sale on Public Surplus. We have \$175,000 in our FY2024 budget for maintenance and upkeep of our buildings. I recommend purchasing the Norwesco heavy duty 5,025 gallon horizontal leg tank from Sprayer Specialties for \$16,860.16.
