Subject: Purchase of End Point Protection Software Subscription

A Quote has been received for the renewal of Sophos End-Point Protection software subscription. The security software is loaded on all County desktop computers and servers and is used to prevent these computers from being a point of entry to the County network for computer viruses and other malicious software. The end point protection software is memory resident and automatically checks files real-time for threats with no client intervention.

The quote summary from Insight Public Sector is as follows:

<u>Description</u>	<u>Quantity</u>	<u>Total</u>
Sophos Central for Server	200	\$14,104.00
Sophos Central for User	650	\$19,727.50
Sophos Central Device Encryption	650	\$ 0.00
		\$33,831.50

It is recommended that the Board approve the quote from Insight in the amount of \$33,831.50. Budget dollars are available in the IT operational budget to fund the cost of this software.

Notes:

- The term of this agreement is for three (3) years through 6/23/27
- Sophos costs were \$30,184 in FY'21 for a three (3) year subscription from Insight Public Sector.
- Pricing was obtained from Insight via the OMNIA Partners contract. (Pricing through OMNIA Partners contract is competitively sourced and is available for use nationally by all state and local government entities including Scott County.)
