2006

Fiscal Year Annual Report

A Note from the Director

I am pleased to present to you the Fiscal Year 2006 Annual Report for the Scott County Health Department. A lot has happened in the past year and I would like to share a few of the highlights with you.

In May 2006, staff hosted Measles, Mumps, and Rubella (MMR) clinics at St. Ambrose and at the Scott County Administrative Center in response to the rising number of cases throughout the state and after it was discovered that many young adults did not have the second MMR shot.

In 2006, 965 radon test kits were given to or purchased by Scott County residents. As a result, several residents discovered that they had high levels of radon and have since fixed the problem.

For Public Health Month in April, staff planned a trivia night with a public health focus. Nineteen teams participated in trivia night, raising \$1,158 to benefit United Way, while at the same time, learning more about public health.

Presently there are 42 staff members employed by the Scott County Health Department in the following areas:

- 1) administration
- 2) clinical services
- 3) community relations, information, and planning services
- 4) correctional health
- 5) environmental services
- 6) public health safety

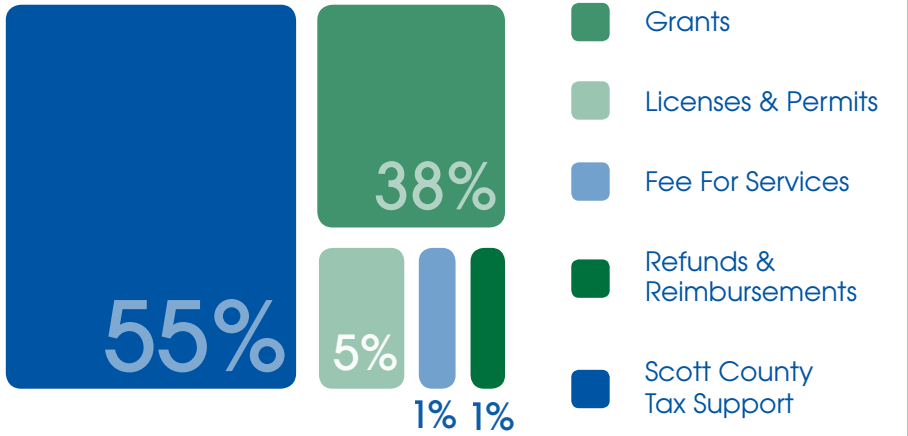

I invite you to visit our website at www.scottcountyiowa.com/health to learn more about the services we provide to Scott County residents. On behalf of the Scott County Health Department, I would like to thank you for your support.

Sincerely,
Lawrence E. Barker, Director

Fiscal Year 2006 Revenue

Fiscal Year 2006 Expenditures

Total Budget for Fiscal Year 2006:
\$4,715,926.37

Accomplishments In Fiscal Year 2006

Administration

Indicator Objectives Completed	10
Program Evaluations Completed	2
Customer Surveys Completed	4

The Scott County Health Department administration is dedicated to ensuring that the services provided to the community are of high quality and service. Throughout fiscal year 2006, two program evaluations were completed, including grants management and the food program. There were also four customer satisfaction surveys completed including the food inspection program, immunization program, school health services, and correctional health.

Community Relations, Information & Planning Services

Service Provider Education Provided	85
Community Education Provided	167
Number of Media Requests	158

The Scott County Health Department provided 99% of education presentations requested by service providers, 100% of requested education presentations by the community, and responded to 100% of media requests within 24 hours. In addition, \$1,773,566.69 was secured through grants to provide funding for programs that benefited Scott County residents.

Environmental Services

Number of Inspections Conducted	3,987
Number of Re-Inspections Conducted	483
Number of Lead Homes Remediated	9

Each year, Environmental health staff conducts a variety of inspections including food service establishments, mass gatherings, temporary/mobile, hotel/motel, lead, nuisance, pool, tanning/tattoo, water wells, onsite waste water systems, vending machines, and waste haulers.

Clinical Services

Number of Clients Provided HIV Services	329
Number of Clients Provided STD Services	2,343
Number of Communicable Diseases Reported	3,446
Number of Clients Provided with Immunization	973
Number of Clients Provided a Lead Screening	1,708

The Clinical Services staff at the Scott County Health Department offers a variety of services including STD/HIV testing, treatment, counseling and referral, childhood immunizations, communicable disease control, non-public school nursing, and lead poisoning case management. In addition, the Child Care Nurse Consultant is available to provide assistance to child care providers and preschools.

Public Health Safety

Number of Emergency Medical Transports	22,251
Number of Death Cases Requiring Medical Examiner Services by Iowa Code	236

The Scott County Health Department has staff dedicated to public health safety. This includes Emergency Medical Services Inspection and Licensing, Medical Examiner, and Emergency Preparedness Planning. In Fiscal Year 2006, the Scott County Health Department participated in two drills to prepare for emergencies.

Correctional Health

Number of Health Related Inmate Medical Contacts Provided Within the Jail	3,795
---	-------

The Scott County Health Department oversees health services to the inmates of the Scott County jail including basic health care, STD, HIV, and tuberculosis testing, substance abuse treatment, and psychiatric and emergency services.

Scott County Board of Health

The Board of Health consists of five members of the community who were appointed by the Board of Supervisors. The Board of Health meets on the third Thursday of the month at noon at the Scott County Administrative Center's first floor boardroom. The public is invited to attend these meetings.

(L to R) Dr. Gregory Garvin, Dr. Ann O'Donnell, Dr. Kenneth Kepky, Denise Coiner, and Dr. Kathy Hanson

On a Sad Note...

Dr. John Sunderbruch, passed away in March 2006. Dr. Sunderbruch served as the City of Davenport's Health Officer beginning in 1938 and continued in that capacity until the Scott County Board of Health was formed in 1969. He was the first member of the Scott County Board of Health on which he served for thirty-seven consecutive years until his death.
